#### **The Legacy of Nursing Leadership: Have we come Full Circle?**

Program Committee spent many hours working to plan the fall conference. They have put forth tremendous efforts for us to have a great conference this year.

Focused on bringing education and information on currently relevant to nursing.

We did take the conference back to 2 ½ days to provide as much content without feeling rushed and compact.

No information on expenses at this point.

The committee has already started planning 2023 events. Spring conference is scheduled for April 14, 2023 and will remain in Ft. Wayne.

We will quickly start planning for next year's events. We will happily welcome ideas for speakers and group events.

We also welcome new members!

Respectfully Submitted:
